# Milestone - 1

## • ChrEd

#	theme	requirement statement	type	milestone
19	Adjust the picture library Table	An error message pops up when adding a category or image Field 'VERSION' doesn't have a default value => VERSION changed to a nullable value	Issue	1
21	Medical Record Form Categories	Modify the medical record form category => error message: Cannot update Order with order id=1A. Maybe Order was not found or req.body is empty! Add an external API design field (DB table	Issue	1
23	Add a new form	already has a field)	New	1
27	Form Design - Controls	Set the control ID, which should be the only value in the form	Defect	1
32	Front end	Change the title of BS-EDITOR to SMHC-EDITOR Add a button "temporary	New	1
33	front end	storage" on front end chred_trans_mst.STATUS = 0 (default) If click on "Staging" => chred_trans_mst.STATUS = 2 (Staging) If click on "Store" => chred_trans_mst.STATUS = 1 (Done)	New	1
34	PDF	provide api to get the PDF (in the form of byte array)	New	1

## • OBS

#	theme	requirement statement	type	milestone
3	Onload issue	When executing Onload, the field value will be reset	Defect 1	
8	API on Type A	To apply Preload Onload method in listview form	Defect	1
9	front-end performance	In current version, the front end needs to call the API once for each field when saving the form, causing performance problems => please change it to call an API to save all the fields.	Defect	1
11	Staging	Add a button "Staging" on front end obs_trans_mst.STATUS = 0 (default) If click on "Staging" => obs_trans_mst.STATUS = 1 (temporary) If click on "Store" => obs_trans_mst.STATUS = 2 (executed)	New	1
12	PDF	provide api to get the PDF (in the form of byte array)	New	1

# Milestone - 2

- ChrEd

#	Topic 6	requirement statement	type milestone	
New	Data Elements	Set dynamic data source, write API drop-	Defect 2	
12	Add data element details	down menu and option value should display CODE_DESC (Currently the menu shows CODE_NO, and the option value shows ID)	Defect	2
13	Create a dictionary category	Change the dictionary category and dictionary F_ENCODE to F_CODE, "English code" to "code" The code cannot be repeated, not null	Defect	2
14	Create a dictionary category	After clicking to modify, in the dictionary category and dictionary window, turn on the flag switch => it will be saved, but when the modification window is opened repeatedly, the switch remains The state of the old display	Defect	2
off 16	Form design - the control ID can be brought into	chred_concept.F_CODE	Defect	2
17	Form Design - Controls	The drop-down menu and option value of the dictionary should display F_FULLNAME (Currently the menu shows F_FULLNAME, but the option value shows ID)	Defect	2
18	Adjust Image Library Table	1. Added gallery category tree DB Table: chred_pic_folder 2. chred_pic_sample.PARENT_ID ȳFOLDER_ID varchar(50) null,	Defect	2
20	Adjust the picture code of the picture library Table	chred_pic_sample. PIC_SAMPLE_KEY should be the only value of the picture (currently not checked)	Defect	2
25	page layout	Currently the front end cannot display the stored direction (Changed to landscape when designing, but the front end will still display vertical orientation)	Issue	2
26	Page Layout 28	After resizing, the orientation changes back to portrait	Issue	2
Form Design - Control (text input box)	Currently, the regular expression has no function		Defect	2
30	Image annotations	The image annotation function does not work properly	Issue	2
31	Frontend •	Allow the front-end to store the form filling records separately	New	2

OBS

#	theme	requirement statement	type milestone	
2	popup LOV dynamic data popup lov control new function:	can set the interface address of dynamic data	New	2
5	front-end form filling records	Allow the front-end to store the form filling records separately	New	2
10	print	In current version, the image will show different size in print page	Defect	2

# Milestone - 3

- ChrEd

#	theme	requirement statement	type milestone	
24	Control Configuration API	Control Configuration API	New	3
29	Database Control Delete	Database control delete, changed to logical delete	New	3
